Automobile Crashed Into Stone Fence.

Four people had a narrow escape Friday night in an automobile accident which occurred on the Winchester pike near the residence of Mr. C. M. Clay. The party which was composed of R. M. Trimble, of Mt. Sterling, and Arthur C. Jones, of Memphis, Tenn., together with two young ladies from Cynthiana, were enroute from this city to Winchester.

The driver was evidently unfamiliar with the route and at a turn in the road the machine crashed into a stone fence completely demolishing the auto and tearing down a part of the fence. The occupants were thrown out by the force of the impact, but fortunately none were injured beyond a few bruises and scratches. One of the men went to a farmhouse close by to telephone to Paris for assistance, but no telephone being available he was compelled to walk to town where a machine was secured from a local garage and returning to the scene of the accident took the ladies to their home in Cynthiana.

The men returned to Paris and registered at the Windsor Hotel where they spent the remainder of the night. The names of the young women in the party could not be learned.

Horse racing is dead in New York State, for this year at least. The Jockey Club has issued a statement saying that because of adverse legislation it had been decided to make no application for dates. This news came out almost simultaneously with reports from New Orleans that horse owners believe the sport beyond revival there.

"Billy" Proved to Be the Culprit

"Billy" a pet goat of men employed by a coal dealer whose office and yard are opposite the Governor's mansion in Frankfort, has been convicted of stealing all the newspapers delivered at the mansion. The offense is of long standing, but the culprit was not discovered until Friday morning when "Billy" was found standing on the front porch of the mansion, leisurely chewing up the morning paper, and enjoying it as much as if it had been the finest quality of alfalfa or California oats.

Governor Willson had been missing his papers for some time, and had been a constant kicker with the news-dealers and local newspapers because his papers were missing.

Carriers were threatened with losing their heads and the whole affair assumed a very disagreeable and warlike condition. The carriers insisted that they left the papers, and finally it was decided to employ a detective to find the thief, and the result was that the goat was caught.
